

LAKE SHORE
Hospital Authority

- The Lake Shore Hospital Authority (LSHA) is an Independent Special District as provided for by Florida Law. As an Independent Special District, the LSHA has broad powers. These powers include, but are not limited to, providing hospital services through ownership, lease, or contract, to furnish temporary relief to the indigent, and to levy taxes.
- The LSHA is governed by a seven-member Board of Trustees appointed by the Governor. There are currently 4 appointed Trustees.

From the period April 1, 1987, through September 30, 2020, the LSHA leased Lake Shore Hospital to 3 different healthcare companies. The last of these healthcare companies, Community Health Systems (CHS) gave verbal notice on May 6, 2020, that they would cease hospital operations on September 30, 2020. The reason cited for closure was non-profitability. The hospital has remained without a tenant since.

Identified issues in finding a new hospital tenant for Lake Shore Hospital included, but was not limited to, profitability of previous operators and building standards (as set by state rule) required to keep the building as a hospital. Several hospital groups were contacted to gauge interest in Lake Shore Hospital; however, the LSHA was not successful in finding a new hospital tenant.

As a new hospital operator was not found, LSHA issued a “Request for Proposals – Statements of Interest” to determine what service providers may be interested in utilizing Lake Shore Hospital. Responses were received on August 3, 2020, and were grouped into those that provided direct medical services and those that provided medical support or other services.

The proposal vetting process was interrupted by COVID-19 and the lack of a quorum on the Board of Trustees (July 5, 2021 – November 5, 2021).

Due to the length of time elapsed since the proposals were received, all responses received on August 3, 2020, were rejected and a new “2nd Offer - Request for Proposals” issued. Responses to the 2nd RFP were received on February 22, 2022.

Meridian Behavioral Healthcare submitted a response to both “Request for Proposals” issued by the Authority. After vetting, Meridian is the only proposal remaining still under consideration for use of the Lake Shore Hospital (ancillary buildings are separate negotiations). All other responses received for the use of Lake Shore Hospital have been eliminated for various reasons.

In determining an end user for Lake Shore Hospital, it is important to remember the following:

- 1.) Does the intended use meet the legal requirements of the LSHA and does it meet the needs of the community? and,

- 2.) Does the intended user have the financial resources to maintain and operate 125,000 sq ft of space?

It is also important to note the following:

- 1.) LSHA has maintained minimum standards of operation in the hospital since closure. This was to minimize problems with re-occupation. The current monthly overhead is approximately \$50,000.
- 2.) LSHA ownership of the hospital property is subject to a deed “reverter” provision. The ability for the LSHA to deed or sale the property is not guaranteed.

Need for Meridian at Lakeshore

- The population is growing and with that growth comes an increasing demand for a full continuum of behavioral health services.
- 1 in 5 people are effected by mental illness in their lifetime and 1 in 9 people are impacted by substance use in their lifetime. For Columbia County, that means approximately 14,000 individuals in need of mental health services and 7800 individuals in need of substance use services.
- Suicide rates nationally are on the rise. Based on available data, rates in Columbia County are rising as well.
- Columbia County residents needing inpatient treatment for substance use or hospital level psychiatric care currently have to go to another county to receive those services, creating additional barriers to access services and challenges to allow family support and participation in treatment.

 - Hospital will be staffed 24/7 resulting in increased economic impact for the surrounding area from professional jobs.
- Meridian would address the growing need for substance use treatment with an addictions receiving facility, not currently provided in the region.
- Meridian will continue providing a coordinated system of care with a teams-based wraparound model from admission to discharge to follow-up and outreach programs.

Meridian at Lakeshore

Our collective goal is to better the health and well-being for the communities we serve.

This opportunity or an opportunity comparable will not present itself again and with the value to the community, these life saving services may not be available to the degree needed in the future.

We ask is for the opportunity to sit down and develop a mutually agreeable and supportive agreement that collectively will provide for the citizens of Columbia County for the foreseeable future.

Good morning,

Please see attached calls for service for last year for Meridian. Please note, It appears there were only 4 reports generated out of these, so most were probably miscellaneous in nature. The call types are listed. Also, please note that these do not include our routine court orders for Marchman Acts or our Baker Acts we generate. These are just the calls which are in addition to that.

Also, Meridian is located in the Lake City Police Department's jurisdiction, so most calls for service would usually be routed through them. They may have additional data. Please let me know if you have any questions.

YES NO

Question:

How is this facility going to help the Black community?

How many jobs will this facility ~~will~~ hire specifically ^{out} to the Black community?

Why put this facility in a community that doesn't even mention there? May support the idea but wrong location?

Wouldn't this facility ruin the future for what many want to see in that area? What about the increase of drug addicts in a heavy drug area already?

Why not put it on West 90 where all the communities are located?

~~What are you guys doing during the crack epidemic?~~

Where were you guys during the crack epidemic when blacks were going to prison rather than treatment?

Question:

while I agree that the need is present in Columbia County/
Lake City, my question centers on the impact this
project may have on the central business district
of Lake City. We currently have a burgeoning
CBD and I am unconvinced that locating a
psychiatric hospital will not adversely impact
business demand and/or commercial traffic
in Lake City. How many treatment facilities
do you have in Central Business Districts and
do you have any studies that relate to the
impact on traffic and events in the downtown
area.
